Buddy,

You and your company, Rogers Roofing have been taking care of our Gordman's locations in Nebraska and Iowa for many years now and it's time I recognized you and your people for the fine work you do for Gordmans.

Rogers Roofing has taken a personal interest in maintaining our roofs, gutters and downspouts to insure our buildings stay in the dry.

You have provided detailed photographs showing conditions that are in need of attention as well as aerial photographs showing the entire roof, making it easy for those of us who are not roof experts, to understand the problems and to go forward and make the necessary repairs.

Your expertise in holding the line on our costs over the years has not gone unnoticed and we are greatly appreciative of your council.

It is for all the above reasons that I want to wish you and Rogers Roofing continued success and hope you will be a "Partner in Business" with Gordman's Stores for a long long time.

Sincerely,

A handwritten signature in black ink that reads 'Gene Kaplan'.

Gene Kaplan
Corporate Director
Property Management & Construction
